MOST METRES PER POUND IN THE INDUSTRY!

- Light Weight • Affordable
- Environmentally Friendly
- Safe • Portable • Easy

The **NW350** uses 3 industry standard Kubota D1105-T 33 hp Diesel engines. The rig boasts an impressive 13,300 kg. (29,400 lbs.) of pullback to drill efficiently, safely and dependably. It has a proven design that goes anywhere, sets up quickly and is simple to operate and maintain.

The **NW350** utilizes 1.5m (5ft) drill rods and is capable of turning up to HW casing for the top of any hole.

NW350

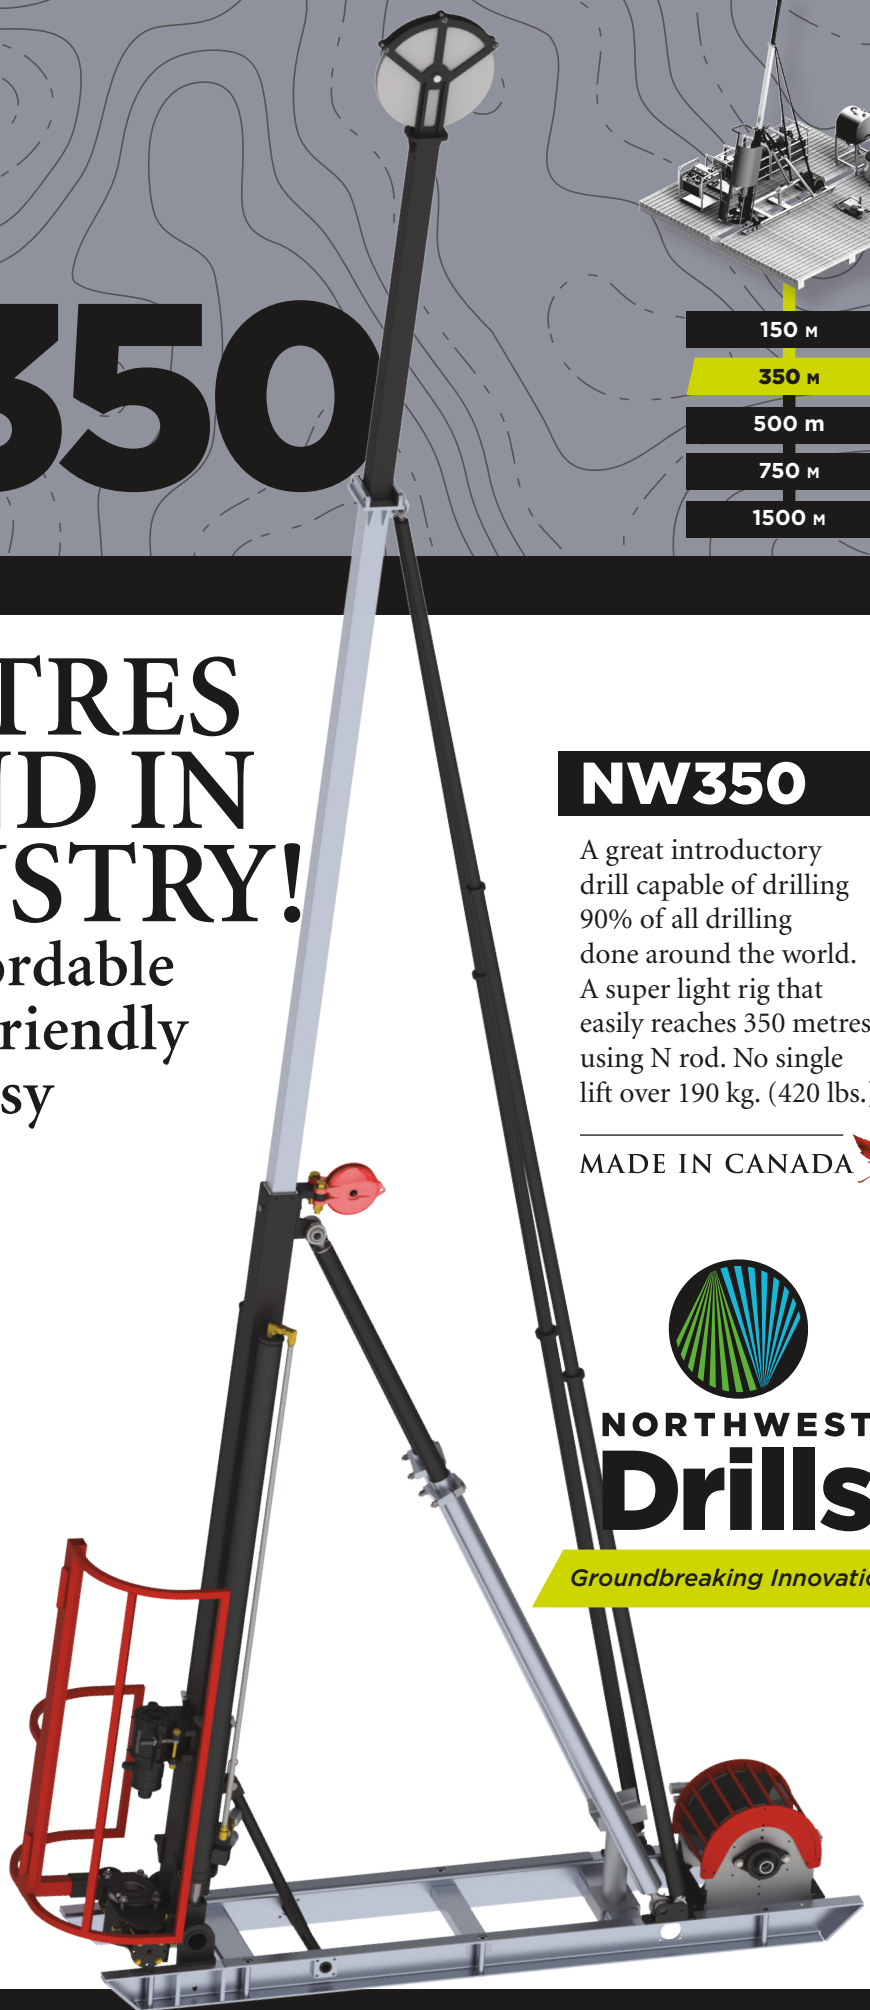

A great introductory drill capable of drilling 90% of all drilling done around the world. A super light rig that easily reaches 350 metres using N rod. No single lift over 190 kg. (420 lbs.)

Groundbreaking Innovations

NW350 Drill Pad & It's Components

- 1 4.27M x 4.27M (14'x14') KD Wooden Platform
- 2 Feed Frame ~.9525CM (3/8")AL
- 3 Extended Stinger for 10' Core Barrel
- 4 Hydraulic Control Panel
- 5 3x Kubota 33HP Diesel Motors
- 6 DHP-Pressure Pump to 68.9476 BAR (1000PSI)
- 7 Fuel Tank & AL Stand
- 8 Mud Tanks & Water Supply
