500 M

750 M

1500 M

## MOST METRES PER POUND IN THE INDUSTRY!

- Light Weight • Affordable
- Environmentally Friendly
- Safe • Portable • Easy

The **NW500** uses 3 industry standard Kubota 42hp turbo charged diesel engines with over 13,300 kg. (29,400 lbs.) of pullback to drill efficiently, safely and dependably. Its' proven design allows it to go anywhere, set up quickly, and is a breeze to operate and maintain.

The **NW500** can also be outfitted with the optional "DIMS - Data information & Monitoring System" to maximize up-time and greatly increase productivity. This innovative monitoring system supplies accurate, real time billing information, spare parts ordering and an on-line manual and trouble shooting guide.

### NW500

Our most popular model!  
Easily capable of reaching 500 metres using N rod. A lightweight drill that offers incredible value. Truly man-portable with no single lift over 205 kg. (450 lbs.)
