# NW600

MAN PORTABLE SERIES

## MOST METRES PER POUND IN THE INDUSTRY!

- Light Weight • Affordable
- Environmentally Friendly
- Safe • Portable • Easy

**The NW600** uses 2 Isuzu Turbo Diesel motors. With over 15,600 kg. (34,400 lbs) of pullback to drill efficiently, safely and dependably. Its' proven design allows it to go anywhere, set up quickly, and is a breeze to operate and maintain.

**The NW600** can also be outfitted with the optional "DIMS - Data information & Monitoring System" to maximize up-time and greatly increase productivity. This innovative monitoring system supplies accurate, real time billing information, spare parts ordering and an on-line manual and trouble shooting guide.

### NW600

OUR NEWEST DRILL!  
Easily capable of reaching 600 metres using N rod. With two engines, it is far more efficient, still man-portable and faster to set up and tear down. The NW600 uses less fuel, being more productive in the field, therefore saving you money!
